Work experience:

- 2010 - To present:

Assistant to Supervisor in the Engineering shops of the American University of Beirut. My duties: Educate, assist and instruct the 2nd, 3rd, 4th year mechanical engineering students to operate the CNC machines, and help them to achieve their Final Year Projects.

- 2003 - 2010:

Materials and Manufacturing lab Master in the Engineering shops of the American University of Beirut.

My duties: In charge of the Computerized Numerically Controlled CNC lab that contains two HAAS high-tech CNC machines.

I launched the CNC Materials and Manufacturing lab activities by providing a professional services and superior manufacturing CAD-CAM knowledge to all the AUB and AUBMC departments since 2005.

During the last 9 years, I supervised around 110 Final Year Projects for graduate and undergraduate students among the projects were the ones that got the Deans Award for creative achievement and many other local and international awards.

- 1997-2002:

Sales Representative and Customer Support at the “Electronic Office Supplies” company, dealers of all Casio products in Lebanon, Fanar 01-891785.

Education:

- 2009: Executive MBA from the Ecole Superieure des Affaires
- 2002: Bachelor degree in Telecommunication

Training:

- January-February 2005:

3 weeks of training at the HAAS Automation Inc. in California USA on Programming and maintenance of the CNC Machines.

1 week of training in 2D-3D CAD/CAM training at SURFCAM Company in Westlake Village California USA.

Skills:

Languages: English, French, Arabic, and Armenian.

Microsoft Office: Word, Excel, Power Point,
